Speak Up 2014
State Data
K-2 Group

Results based on 2298 survey(s).

Note: Survey responses are based upon the number of individuals that responded to the specific question.

Please note: The K-2 Group survey required the survey taker to enter the total number of students responding to each of the questions. In an effort to include all student responses, we reviewed all of the non-numeric responses and assigned the appropriate values. In cases where we could not ascertain the group count, we assigned a value of 1. If you have specific questions about your group survey, please contact our office at speakup@tomorrow.org
